### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

***Note: This is in response to an Amendment filed 04/24/2007.***

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Lim et al. (U.S. 6,946,173).

Lim et al discloses in figures 1-3, a catheter (10) having a balloon (24) mounted on its distal end; wherein the balloon (24) comprises a first plasma polymerized layer (35)(see col. 8, lines 9-14) which form the outer layer (33) of the balloon and a second plasma polymerized layer (col. 8, lines 34-38) which considered to form on the inner layer (34) of the balloon; wherein the first and second plasma polymerized layers ((35) and col. 8, lines 9-14 and 34-38)) are formed by the reaction of monomer selected from the group as claimed (col. 2-13) and a stent (30) mounted on the balloon. As to claim the method claims 14-21, the Wang et al device is capable of performing the method steps as recited in the claimed invention.

### ***Response to Arguments***

Applicant's arguments filed 04/24/2007 have been fully considered but they are not persuasive. With respect to claims 1, 9, and 14, according to applicant, Lim et al Fails to suggest the balloon having inner and outer layers formed by plasma polymerization. This is simply not true due to the rejection as stated above, which clearly shown the balloon (24) comprises a first plasma polymerized layer (35)(col. 8, lines 9-14) forms the outer layer (33) of the balloon and a second plasma polymerized layer (col. 8, lines 34-38) forms on the inner layer (34) of the balloon. For this reason, the Examiner disagrees with Applicant's remarks and has maintained the grounds of rejection under 35 U.S.C. 102 (e) as being anticipated by Lim et al. '173 for the reasons as set forth in the previous office action.

### ***Conclusion***

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
